

SINCERE WISHES FOR 2022 ONWARD

R S BROKERS NEWSLETTER

More and more the old normal starts feeling arising again.

Picturing the year ahead, I just can't help visualizing an old man's body rising from the dirt and dust, every limb stiff and movement rickety, shaking off the mud and clots. However it is with deep regret and sorrow we remember appreciated clients and loved ones that passed away during this COVID pandemic.

But surely we remember the proverb, a healthy body hosts a healthy mind.

In order to keep the body healthy, RS Brokers started 2022 off with a new product, specializing in **comprehensive cover and extended benefits for commercial and residential building structures.** Intensified load shedding and power interruption causes major power surge damage to electronic and electrical equipment, solar panels, geysers and batteries. These business interruptions, and household disruptions, leaves businesses and public fragile with less income. Proper comprehensive building cover with extended benefits minimize financial losses and keeps you on track.

CORPORATE CYBER SECURITY insurance is a product that needs some serious consideration. The occurrence and severity of cyber-attacks on businesses increases daily, regardless of business size.

In office changes - renewed procedures and goals ensure the minds stay bright and alert. They say a change is as good as a holiday.....well almost – depends.

New business in future will be handled by myself, Renthea Smit. Continuous training on products and wording keeps RS Brokers competent, providing professional services.

RS Brokers wish you well for the remaining of 2022.

May RIGHTIOUSNESS be the sword in your right,

And MERCY the spear in your left hand,

WISDOM and KNOWLEDGE your crown,

PEACE and FORGIVENESS the shield across your heart

Kind regards RS Brokers team
